

# Unfold your future

2014 DEEWR  
GRADUATE PROGRAM  
ICT DISCIPLINE

## DEEWR Information and Communication Technology

DEEWR continues to explore and invest in innovative technologies and is recognised as being at the forefront of the deployment of these technologies within the Australian Public Service (APS). The department is a leader in the deployment of Microsoft technologies such as .Net, SharePoint, Exchange, SQL, Windows and the Office Suite. Our desktop applications and facilities are also considered cutting edge within government.

The department has one of the largest and most dynamic ICT workforces within the APS and is responsible for:

- developing and supporting the application systems that underpin all aspects of the implementation of the Government's policies and programs in this portfolio
- application development, maintenance and support services across a number of departmental policy and program areas in addition to providing services to its external portfolio agencies
- delivering information and communication technology services for the department and client agencies with a strong focus on project management.

## Successfully completed your degree?

You must have successfully completed a Bachelor degree or higher within three years prior to the commencement of the DEEWR Graduate Program in mid-February 2014.

## Citizenship

To be eligible for the DEEWR Graduate Program, you must be an Australian citizen prior to the commencement of the Graduate Program.

# Unfold your options

## DEEWR

The department brings together people, policies and programs to support the Australian Government's agenda on important aspects of Australian life—access to quality and affordable childcare, early childhood and school education, as well as jobs, and fair, safe and productive workplaces.

We are committed to reconciliation and support workplace diversity. We value the contributions of people with different backgrounds, experiences and perspectives. Applications are welcome from Aboriginal and Torres Strait Islander persons, mature age candidates and people with disability.
