IT Graduate Program

Achieve your best.
Deliver for Queensland.

Queensland
Government

Make your mark
in a digital Queensland

The IT Graduate Program is your opportunity, a chance to start your career contributing to a digital Queensland. You will get to work on some of the most exciting and innovative IT projects in the state, implementing positive changes for Queenslanders.

It's not just technical IT. We're looking for graduates who can help the Queensland Government in all aspects of IT delivery, providing services to Queenslanders how and when they want it.

We're looking for graduates with degrees in:

- information technology, cloud computing, cyber security, computer science, data analytics, robotics, telecommunications, information management, mathematics
- business, marketing, procurement
- project management, law, creative industries
- web and multimedia design, user experience design.

Commencing in 2020, graduates will receive excellent training and networking opportunities, work-life balance, generous leave and a $60k starting salary plus super.
