every day

Graduate & Vacation Positions - Information Systems & Technology

Coal & Metal Assets

NSW, QLD and NT

At Glencore you will work with leaders in your field every day. You will be a part of a global company who want you to succeed, not just for the benefit of the organisation but also so you can achieve your own career goals. Our people are committed to working ways that embrace our values of Safety, Integrity, Entrepreneurialism, Simplicity, Responsibility, and Openness.

Glencore have a number of opportunities opening up to university students to join our Information Systems & Technology Graduate Program (for those graduating this year) or our summer Vacation Program for those students still studying.

From day one as a **Graduate**, you get the opportunity to apply what you've studied – working in the field solving real world challenges, challenges that span and extend beyond your discipline. Dependant on the site, there are a great number of additional financial benefits, and if residential, we will pay for your relocation.

Those students still studying will gain similar exposure during their **Vacation Program** and will contribute to critical operational business improvement projects.

See the next page for more specific site information on the work you could be doing. Regardless of the site or commodity, Glencore provides unrivalled career and development prospects, great communities and the opportunity to work with leaders in your field.

Applications will only be accepted via: www.glencore.com/careers.

Graduate Applications **Currently Open and Close:** 5 April 2021

Vacation Student Applications **Open:** Mid-April 2021

Commodity Information - Information Systems & Technology

Specific Role Information

As a Graduate Information Systems and Technology Professional, you will be exposed to various duties undertaken in the field support. Your typical day may be out in the field maintaining and repairing the onsite desktop fleet and helping users with their everyday computer related issues, or helping develop solutions to business problems by analysing business functions for opportunities to improve processes or systems. No matter which might be, you will assist with experienced IS&T team to create right setup technologically and make a positive difference for optimal business performance across our mine sites.

Coal – Queensland and New South Wales

What distinguishes us from other programs is the acceleration of your skills development. We believe that rotation through a variety of teams, mining methods and locations, we can enhance your professional and practical development on a fast track towards achievement of your career goals. To support you in this growth, you will have access to our Senior Leadership team from Day 1! All of our graduates are engaged in a structured leadership development program, you have access to a mentor and a series of professional development workshops culminating in an Australia wide national conference with your peers and our business leaders.

Copper & Zinc - Queensland, New South Wales and Northern Territory

Our industry-leading and experienced professionals will challenge you each step of the way - to think differently, ask questions and come up with creative solutions. Glencore Metals offer the opportunity to experience mine to market with our two Mount Isa processing plants, four underground mining locations and our Townsville Refinery and Port Operations, we believe that rotation through our variety of teams, mining methods and locations will fast track your career. As a Glencore graduate, you'll have access to unrivalled opportunities and unlimited potential to grow your career. This is your opportunity to test your skills and creativity in real situations, working with some of the best in your field.
