Graduate & Vacation Positions – Surveyor

Coal & Metal Assets

NSW, QLD and NT

At Glencore you will work with leaders in your field every day. You will be a part of a global company who want you to succeed, not just for the benefit of the organisation but also so you can achieve your own career goals. Our people are committed to working ways that embrace our values of Safety, Integrity, Entrepreneurialism, Simplicity, Responsibility, and Openness.

Glencore have a number of opportunities opening up to university students to join our Surveying Graduate Program (for those graduating this year) or our summer Vacation Program for those students still studying.

As a **Graduate** you will be exposed to current mine surveying techniques and equipment, and take part in the critical aspects of mining provided by the Survey Departments.

Those students still studying will gain similar exposure during their **Vacation Program** and will contribute to critical operational business improvement projects. For those that are going to site, we will support you with travel and accommodation during your placement.

See the next page for more specific site information on the work you could be doing. Glencore provides unrivalled career and development prospects, great communities and the opportunity to work with leaders in your field.

Applications for graduate roles will only be accepted via: www.glencore.com/careers.

Graduate Applications **Currently Open and Close:** 5 April 2021

Vacation Student Applications **Open:** Mid-April 2021

Graduate & Vacation Positions – Surveyor

Specific Role Information

As a Surveyor at Glencore, you will be involved in working alongside experienced and versatile survey teams. You will be exposed to some world-class technologies and you will provide directional control for development mining, other set-outs and production drill mark-ups, install and maintain the mine survey control network, undertake void surveys using Optech / CALS survey equipment and measure / calculate mine volumes for surface stockpiles and underground voids. Under the guidance of our experienced and skilful surveying team, you will contribute to set out blasting patterns and give direction to the mining operation to ensure that all development and mining is executed according to a specific mine design.

No two days are the same, and if you are looking for a challenging but rewarding career as a surveyor, then this is the right opportunity for you.

Coal – Queensland and New South Wales

What distinguishes us from other programs is the acceleration of your skills development. We believe that rotation through a variety of teams, mining methods and locations, we can enhance your professional and practical development on a fast track towards achievement of your career goals. To support you in this growth, you will have access to our Senior Leadership team from Day 1! All of our graduates are engaged in a structured leadership development program, you have access to a mentor and a series of professional development workshops culminating in an Australia wide national conference with your peers and our business leaders.

Copper & Zinc - Queensland, New South Wales and Northern Territory

Our industry-leading and experienced professionals will challenge you each step of the way - to think differently, ask questions and come up with creative solutions. Glencore Metals offer the opportunity to experience mine to market with our two Mount Isa processing plants, four underground mining locations and our Townsville Refinery and Port Operations, we believe that rotation through our variety of teams, mining methods and locations will fast track your career. As a Glencore graduate, you'll have access to unrivalled opportunities and unlimited potential to grow your career. This is your opportunity to test your skills and creativity in real situations, working with some of the best in your field.
