

From grassroots causes to local sporting clubs, schools & hospitals, we provide a wide range of support to a cross section of local not-for-profit community groups. We do this in many different ways including our sausage sizzles, cake stalls, hands-on D.I.Y. project assistance, product contributions, garden makeovers & more.

Fundraising Opportunities

Sausage Sizzles & Cake Stalls

Bunnings sausage sizzles and fundraising cake stalls are enjoyed by thousands of Bunnings customers every week. These are valuable fundraising opportunities for local community groups – all of the funds raised go straight to the community group conducting the fundraiser. Bunnings sausage sizzles are extremely popular and are typically booked out up to three months in advance. If you would like to apply to host a Bunnings sausage sizzle or cake stall, please submit a letter of request to the Activities Organiser on your group's letterhead. Explain what your group does, what it is fundraising for, and include local contact details and a copy of your public liability insurance Certificate of Currency.

Hands-On Support and Contributions

Bunnings regularly helps local community groups by providing hands-on assistance with their projects. Wherever possible our teams take the opportunity to get out into the community and help with grassroots projects. We also regularly donate products for community activities including raffles and fundraising events.

A large number of requests for contributions are received, and regrettably not all applications are successful.

If you would like to be considered for a local store contribution or donation, please submit a letter of request on your group's letterhead, explaining what your group is trying to achieve and how Bunnings might be able to help.

Community D.I.Y. Workshops

Bunnings team members regularly conduct D.I.Y. workshops for local community groups, like schools and kindergartens, aged care and hospitals. Our teams can head out and visit your group or welcome you into our store for your own workshop.

Workshops are tailored for the needs of each community group and can include gardening, craft, woodwork, water and energy saving activities as well as kids activities.

To find out more information about a D.I.Y. workshop for your group and a possible visit from Bunnings team members, contact the Activities Organiser to express your interest via phone, email or in person.

Schools Sustainability Program

Bunnings teams engage with schools on all things sustainability and show how we can make a difference through small and simple actions. Our store teams can come to your school or classes can visit our stores.
