

Moneybags

Pros	Cons
Losing one only loses a fraction of the fridge money	Losing one will occur more often because there are more of them
Each bag won't need to be collected as often	Each bag needs to be checked regularly in case it is full
	Requires for the treasurer's, committee's and CCC's schedules to meet at some point
	Not very secure: could be stolen from if careful
	Current system doesn't deal with breaking notes very well

Money Box

Pros	Cons
Harder to lose	Losing it means losing that weeks fridge money and float
More Secure	Could be made even more secure but that could cause problems or annoyances
Only requires Treasurer to collect	May need to be collected more often (not necessarily a bad thing)
We can learn from any issues that Unigames has had	Complaining from those who don't like change (not going to stop us but it is a thing)
Harder to steal from	
Better at splitting notes (to a point)
